Pasta Primavera

My favourite dish is Pasta Primavera. It's delicious! It's a great vegetarian dish – you only need vegetables. I'm at the supermarket now because I want to make it tonight. I need a <sup>1</sup> packet of spaghetti of course – it's an Italian dish! I also want a <sup>2</sup> bottle of oil, but I only need to use 1/4 of a cup. I want a <sup>3</sup> bag of onions, but I only need to use one. I also need a <sup>4</sup> bag of peas, three carrots, two red peppers, 1/2 kilo of small tomatoes, salt and pepper. Some people prefer to use a <sup>5</sup> jar of tomato sauce, but I like fresh tomatoes for this recipe. Oh, I also need a <sup>6</sup> packet of Parmesan cheese! It's very easy to make. You can find the recipe here on the Internet. For something sweet after the pasta, get a <sup>7</sup> tub of vanilla ice cream or some <sup>8</sup> bars of chocolate for your friends or family.

We can <sup>3</sup> have them for dessert.
